PROFILE

MSc Computer Science student at Birmingham City University with nearly three years of commercial experience as a Frontend Developer. At Zinzo, a digital agency, I built websites and web apps with React, Next.js, Vue.js and TypeScript, and developed Shopify storefronts for international brands, working directly with clients. I have recently added Python to my toolkit and am looking for a graduate role in the industry where I can keep learning and grow as an engineer.

EDUCATION

MSc Computer Science · Birmingham City University
In progress • Birmingham, UK

BSc Information Technology (Networks) · University of Babylon
2015 – 2019 • Hillah, Iraq • Final average 88.76%, First Class

EXPERIENCE

Frontend Developer · Zinzo, Accelerating Ecommerce
Dec 2023 – Sep 2026

- Built frontend projects with **React, Next.js, Vite, Vue.js and TypeScript**, including the Zinzo company website redesign and the Amrita Nutrition site.
- Developed and maintained Shopify storefronts for client brands including **Sjeng Sports**, **By Mölle**, **Geschenken van Vroeg** and **Loints of Holland**.
- Led a data migration restructuring **1,500+ product variants**, published as a Zinzo case study.
- Diagnosed a major drop in mobile performance scores and improved Core Web Vitals.
- Built custom features such as a cart upsell system, an age-verification checkout and responsive navigation.
- Integrated and debugged third-party services and APIs, including Klaviyo, Cookiebot and Judge.me.
- Analysed A/B test data for statistical significance to guide client decisions.
- Collaborated with project leads and clients in a Git-based workflow.

Quality Management Officer, MEAL Officer & English Interpreter · Bent Al-Rafedain NGO
Jun 2020 – Dec 2023 • Iraq
Progressed from interpreter to managing the Monitoring, Evaluation, Accountability and Learning (MEAL) team, ensuring project quality standards were met.

Graphic Designer · Shafaq Al-Noor Travel and Tourism Agency
Jun 2019 – Jun 2020 • Iraq
Designed promotional materials and managed social media content.

PROJECTS

Zinzo Website Redesign · Next.js • TypeScript • zinzo.com
Redesigned and rebuilt the Zinzo agency website as part of the development team, using Next.js and TypeScript.

Amrita Nutrition · Vite • TypeScript • amritanutrition.com
Developed the Amrita Nutrition website with Vite and TypeScript.

Asana Export Manager · React • TypeScript • Vercel
Built a web tool that exports Asana project data into generated PDF reports and delivers them by email, with security hardening applied before release.

Personal Front-end Projects · HTML • CSS • JavaScript • GitHub Pages
Responsive sites on GitHub Pages (Hotel, App Lab, Edge Deger) and the React frontend of the Remotely website.
